Monster Quad

Details

The ADJ Monster Quad is a four lens high output Moonflower effect that is powered by 25 1-Watt RGBWA LEDs (5x Red, 54x Green, 5x Blue, 5x White, & 5x Amber). With a very wide 93-degree beam angle, vibrant colors and 12 built-in shows, the Monster Quad covers a large area of a dance floor and bring pure lighting excitement to any party.

The fixture features stand alone and master/slave configuration with 3 operational modes: Sound Active, Show Mode or DMX Control. Users may also control this LED Moonflower using a DMX software or hardware controller, or from the ADJ's UC-IR infrared remote.

On the rear panel user can change the functions of the Monster Quad with the 4-button LCD display, daisy chain the power via IEC connections and link multiple fixtures via 3-pin DMX cables. There is a safety loop on the rear panel as well to be used with safety cable.
